VOLUME CVIII.--NO. 29. ALEXANDRIA, VA., SATURDAY EVENING, FEBRUARY 2, 1907. PRICE 2 CENTS.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed *free* to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the *names of the ingredients* on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it *in a class all by itself*, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowles and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

Lax-ets

HISTORIC OLD TOWN.

[Correspondent of the Alexandria Gazette.]

Norfolk, Va., Feb. 2.—One of the decided points of interest to visitors to the Jamestown Exposition which opens April 26, will be the quaint historic old town of Williamsburg, less than an hour's ride by rail and ferry from the exposition.

Midway between Jamestown, on the James, and Yorktown, on the York, and but a few miles from either place, this old town has more historical associations clustering about its old-fashioned houses, its groves of mulberry and linden trees and its college, court house and palace greens, than about any other in America. It received its charter from the king and is the oldest incorporated town in the United States, its history being almost identical with the history of the nation. It has lived to see its sister village of Jamestown fall into decay and lie buried beneath the ruins of two hundred years. It was the capital of the colony of Virginia for nearly a century and was the center of the exciting scenes preceeding the revolution.

The old town has been the residence of more personages of world-wide interest than any other on earth. Among these are five presidents of the United States, four signers or the Declaration of Independence three signers of the federal constitution, one Chief Justice of the United States, one judge of the Supreme Court and a long line of governors, cabinet officers and the like. It was really the "Cradle of Liberty," for here in the old Capitol, or House of Burgesses, gathered Patrick Henry, Washington, Richard Henry Lee, Peyton, John and Edmund Randolph, Benjamin Harrison and many other patriots of colonial fame, who made their pleas for better treatment from the mother country and from the old Raleigh tavern which stood near the capital, was sent out the call to the other colonies which resulted in the first continental Congress,

The ruins of the Capitol are at one end of Duke of Gloucester street and the College of William and Mary is at the other, and when President Washington planned the present capital city of the nation, he had the Duke of Gloucester street in old Williamsburg in mind and the beautiful Pennsylvania Avenue with the Capitol at one extremity and the Whith House at the other, was the result.

Williamsburg is very closely connected with the history of George Washington and with the history of the nation as well. From here young Washington set out on that memorable trip through the wilderness as the special messenger of Governor Dinwiddie, to the French on the Ohio; here he came as a bashful young member of the House of Burgesses; here he brought his beautiful wife, the widow of Daniel Parke Custis, and whose home had also been in Williamsburg, and here also he came with Lafayette and rode with that great French general at the head of the allied armies of the colonies and of France, from Williamsburg to Yorktown to capture Cornwallis.

The town and community abound in romance and history and the many objects of antiquity afford themes for days of study and research. The debtors' prison, the only one of its kind in existence in America; the old powder magazine, the court house, one hundred and fifty years old and still in use, the College of William and Mary, the oldest in the United States, except Harvard, are all of national interest.

The old Bruton Church is one of the most interesting places of the old capital. For two hundred years its bell has toled the death of the old year and rung in the new for the generations as they have come and gone. Through its ancient tower entrance passed the court processions of colonial days, the governors with emblazoned emblems betokening the authority and majesty of Old England's kings and queens. It has been aptly called the Westminister Abbey of the New World, for in the surrounding churchyard and under the church as well, not only do the "rude forefathers of the hamlet sleep" but a long line of those whose names are known to earthly fame, and as the visitor reads from marble slab or memorial tablet, he can well realize that he is reading from the pages of his country's history.

The opportunity to visit this historic landmark which will be afforded during the Jamestown Exposition, will no doubt be improved by nearly every visitor, and a mingling with the historical associations of Williamsburg, Jamestown and Yorktown, will lend a deeper appreciation and enchantment to the scenes of splendor and magnificence of the greatest of all naval, military and industrial expositions.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. If safe even for the youngest child. Sold by E. S. The Marlboroughs.

An authorative statement embodying what the family desires to say on the case of the Duke and Duchess of Marlborough was given out in London last night. It is as follows:

"The differences between the Duke and the Duchess of Marlborough have been settled privately. The children arrived at Sunderland House yesterday, and the duchess and her children will proceed to the continent early next week."

This statement is somewhat ambiguous, owing to the possible interpretation that the duke and duchess have settled their differences and resumed the relations of husband and wife, but the family expressly desires to let it stand as it is, without giving it further preciseness.

It is understood that the duchess will continue to make Sunderland House her London home, while the duke will have town headquarters at a West End hotel, as he has done since October last.

King Edward has been made acquainted with the full terms of the settlement through the duke himself, who had an audience with the king at Buckingham Palace yesterday.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, FEB. 2, 1907.

SOME newspapers continue to use the bellows on the expiring California coal, the outcome of the friction between the San Francisco authorities and the resident Japanese. But few conservative journals of the country are disposed to regard the matter seriously. Many things go to show that the United States is neither prepared nor preparing for a conflict with Japan, and many reasons could be urged to show that neither the United States nor Japan is prepared to have its sanity questioned by wantonly precipitating an armed conflict over a trivial matter. The possibility of war with Japan continued yesterday to be the foremost subject under discussion in official circles. Members of the Cabinet with one exception, declared emphatically that there was no basis for recent reports as to the imminence of war between the two countries, and they continued to give out pacific statements relative to the subject. Notwithstanding all the war talk, it is asserted at the State Department that the relations between the governments of Japan and the United States are cordial and friendly. Everything is being done, both in Tokio and in Washington, to create a better feeling among the peoples of the two countries in order that all existing differences may be settled by the governments without the interference of popular feeling. Even the California delegation in Congress ridicules the report that war between this country and Japan is likely to occur. Neither the army nor the navy is even tentatively preparing for hostilities in the Orient. In fact, there is now no thought of war with Japan. Some representative men, notwithstanding such assurances, continue to ventilate themselves on what they declare to be an inevitable conflict between Japan and the United States. In an address delivered last night before the National Geographic Society in Washington Senator Perkins, of California, dwelt at length upon the probability of a conflict between the Americans and the Japanese—"two irreconcilable races," as he pronounced them. The war talk has interested Hobson, of Merrimac fame. He also sees a spreading war cloud, and repeats his former recommendations for the construction of a more formidable United States navy.

THE HOUSE passed a bill recently making it unlawful for any national bank or corporation organized by authority of Congress to make a money contribution in connection with any political office. The bill had already passed the Senate, and went to the President for his signature, with the result that it will be effective in the next national campaign. The law will apply to any election at which presidential or vice presidential electors or a representative in Congress is to be voted for, or an election by any state legislature of a United States senator. Every corporation making a contribution will be subject to a fine not exceeding $5,000. Every officer or director of a corporation who will consent to any contribution will, upon conviction, be fined from $250 to $1,000 or imprisoned one year. The republican campaign funds from this time on will look like thirty-cents compared with those of recent years.

A WRITER in a Baltimore paper reviews the modern means used by some enterprising preachers to draw large crowds into churches. He refers to the free lunch feature, performers in the shape of whistlers, vaudeville artists, gospel wagons, chapel cars, Christmas dinners, pink teas, sociables, stereopticon views, operatic music, &c., &c. That such incentives for attending churches result in any lasting good may be justly questioned, and many reasons could be given to show that when churches resort to such means to crowd the edifices they merely bring together fickle multitudes who have no real interest in spiritual matters and who are likely to follow the crowd when more enticing features are presented in other places of worship.

THE COUNSEL for Harry Thaw, it is generally believed, will base the defence upon temporary insanity. This has for some time been apparent, although some have suggested that the assassin would attempt to fortify himself behind what is termed the "unwritten law." The latest theory, however, is that Thaw was hypnotized by a Frenchman, who hated White, and that the young man was the tool in the hands of the murderous Frenchman. Many people do not believe in mesmerism, and should it be urged that Thaw was acting under the power of a hypnotist, prospective jurymen will be asked if they believe in such an influence.

SURGICAL PUNISHMENT for attempted criminal assault, in addition to 20 years' imprisonment and 60 lashes, a punishment proposed in a Delaware House measure, was killed in the Senate of that State Wednesday by a vote of 10 nays to 6 yeas, after almost unanimously passing the House last week. The failure of this bill is much to be deplored. Delaware has many good laws on her statute books, and it was hoped that the surgical punishment law would be added to the number.

From Washington.

Correspondence of the Alexandria Gazette.]

From the way Congress is proceeding few would imaging that the end of the session is but four weeks away. By far the greater part of this week in the Senate was devoted to speechmaking on subjects which it is known cannot be enacted into legislation at this session. Yet the procedure is all according to the programme laid down by the leaders at the beginning—namely, that nothing but appropriation bills and other necessary measures should be passed. In order to carry out this plan and to prevent the injection, of undesired subjects, the "talking feast" has been encouraged most of the big appropriation bills will have to be rushed through during the closing days of the session.

Sandwiched in between the speeches some little business, however, was done. It is expected that the Indian appropriation bill, which carries nearly $15,000,000, will be taken up on Monday and will occupy attention for several days. The army appropriation bill will probably be reported from the committee early in the week, and will be taken up as soon as the Indian measure is disposed of. The investigation into the Brownsville affair will be begun in the Senate committee on military affairs on Monday. The conferees on the immigration bill will try to secure a final agreement on Monday. The House is also proceeding in a leisurely fashion. Not before the end of the coming week will the river and harbor proposition and the ship subsidy measure be disposed of, if then. The river and harbor bill has evoked many discordant voices. The ship subsidy people will come in with their bill just as soon as the river and harbor measure can be finished. This makes it hardly possible that the naval appropriation and the postal bill can be given consideration before the week beginning February 11.

The bill for the establishment of an agricultural bank in the Philippines, under a guarantee from the Government of 4 per cent. interest on the money investment, was today reported favorably by the Senate committee on the Philippines. A similar measure has been reported to the House and there is a good prospect that it will become law at this session. The Senate bill requires that the principal office of the bank shall be in Manila with branches in such parts of the islands as may be designated by the Philippine commission. The sole purpose of the bank is to make loans for the purpose of assisting agriculture in the islands and no loan is to exceed $5,000. Interest to be charged is limited to 10 per cent.

The President had a conference today with Messrs. Hill and Marshall over the pending bill which has for its purpose the "easing up" of the regulations controlling the manufacture of denatured alcohol. The President assured the Congressmen that he was in hearty sympathy with the proposed legislation and would use his influence to secure a favorable vote on the bill before the close of the session. "The farmers feel that they were given a gold brick in the denatured alcohol bill that was passed last session," said Mr. Marshall. "Under the regulations as they now stand it is practically impossible for any farmer or little syndicate of farmers to go into the manufacture of the product. The new bill will make it possible for any farmer to go into the business with a capital of $100. Under the present law it would require thousands."

The appropriation committee of the House today made its report on the proposed loan to the Jamestown Exposition Company. As incorporated by the Senate in the urgent deficiency bill the loan is for $1,000,000. The House committee cut this down to $800,000 and provided for a lien on the real estate and other property of the company instead of taking a portion of the gross receipts.

One of the earliest witnesses in the Brownsville inquiry by the Senate committee on military affairs, which will begin on Monday next at 10 o'clock, will be Mingo Sanders, formerly sergeant of Company B. of the 25th. Infantry. Sergeant Jackson of the same company and A. H. Roland, of Company D. are also expected to be examined at Monday's session.

The House committee on public lands today agreed to make a favorable report on the Flint bill with amendments for the strengthening and protection of the banks of the Colorado river in the Imperial Valley. The sum appropriated is reduced from $2,000,000 to $1,000,000, and another section added making this sum merely a loan from the general reclamation fund of the treasury.

Messrs. J. Y. Williams, J. T. Preston and W. A. Smoot, jr., of the Chamber of Commerce of Alexandria, were here today to see Senator Daniel and urge him to do all in his power to kill the wide tire bill which passed the House last Monday.

The Thaw Trial.

New York, N. Y., February 2 — Thaw has every confidence in his acquittal by the jury, who are to determine whether he must die in the electric chair or go free. "The jury is more than satisfactory to me." said Thaw, today "and I am certain to received a fair trial. I have no fears for the outcome, for I am certain that when I tell the jurors my story they will feel that I was justified in my act."

Harry Thaw's attorneys are today ready to begin the presentation of their case to the jury, which will decide his fate. Final touches were given the defense's plan of procedure, at a conference held between Thaw and his attorney in the Tomb, last night. Mr. Peabody, one of the counsel for the defence denies a report printed in local newspapers purporting to have been made by Lawyer Clifford W. Hartridge, saying that Thaw would take the stand for himself. "That is a bridge we will not cross until we arrive there" he explained.

Mrs. John Randolph Tucker, of Winchester will neither deny nor affirm the report that her daughter, Mrs. Gertrude Logan, is soon to marry John G. THE LATE SENATOR GORMAN.

In some respects the eulogies delivered in the Senate yesterday, when the life and public services of the late Senator Arthur Pue Gorman were being extolled, were unique. Senators Tillman and Blackburn departed from the beaten paths of somber words and beautiful platitudes to tell the country something of the truth as they understood it regarding the political activities of their late colleague.

Mr. Rayner, once the late Senator's political enemy, was particularly eloquent, and Senator Wm. Pinkney Whyte, between whom and Mr. Gorman a political feud existed for many years, took occasion to explain that the differences were political, not personal.

It remained for Senator Blackburn, of Kentucky, who succeeded Mr Gorman as chairman of the democratic caucus, and Mr. Tillman, of South Carolina, to delve into democratic history and unfold secrets concerning the Wilson-Gorman tariff bill, and, as they explained, "for the sake of the truth of history," to accuse ex-president Cleveland of the grossest bad faith in his political dealings with the dead Senator from Maryland.

Mr. Blackburn said "when the Wilson-Gorman tariff bill came from the House and was to supersede the McKinley measure, Mr. Gorman was indeed a potential factor in this chamber. His action upon that occasion, his course in connection with that important measure have been made the occasion of unfair censure and unmerited criticism.

"That bill, while it might, and by many was believed to, be a decided improvement upon the taxing measure that it supplanted, failed, as is known of all men, to meet the expectation of the country, or the reasonable demands made by Mr. Gorman's party. For that failure it was sought to fasten upon the Maryland Senator a degree of responsibility that did not honestly belong to him, and here, in order to vindicate the truth of history, I enter an earnest and solemn protest against that injustice surviving, as he has gone. Other men of his party, higher in decision and in power, than he was then, who sought to relieve themselves of criticism by undertaking to fasten upon him a burden that did not belong to him, should answer at the bar of history instead of the dead Marylander.

"The records of this Congress show that when summoned to testify as witnesses upon this floor his co-laborers upon the Senate committee on finance, most of them now dead, as is the Maryland Senator—Voorhees, of Indiana, the chairman of that committee; Harris, of Tennessee; Vest, of Missouri, and Jones of Arkansas—bore willing witness to the fact that there never was a modification made of that measure; there never was a step taken in revision, in remodeling; there never was an alteration proposed or carried into effect by the conference of this side of the chamber upon that tax bill that was not unhesitatingly approved and indorsed, pleaded for and demanded by those higher in authority than Mr. Gorman or myself, who afterward saw fit to denounce it and brand it with the brand of perfidy.

"He bore the unjust accusation patiently. That splendid serenity and poise which has been so happily described by his colleagues here did not desert him. In that hour of his triumph and in the hours of his dismsers and defeat, he was always the same self-contained, the even poised, undisturbed, unshaken man."

Mr. Tillman during his speech said: "In October, 1892, I visited New York on business and remained in the city a week or more. I was at that time governor of South Carolina. Naturally I felt a most keen interest in the result of the approaching presidential election, I visited the democratic headquarters and had opportunity to talk with some of the leading men connected with the conduct of the democratic campaign. There was intense interest and feeling in view of the well-known attitude of President Harrison on the force bill.

"I lived in a State where the negroes were in the majority and where we had suffered from negro domination. So I felt the deepest concern for the success of the democratic party, feeling that the election of a republican President at that juncture who favored the force bill would be nothing short of a national calamity. I found there was great activity at headquarters, and frantic appeals were being made for campaign funds to strengthen the party in several doubtful States, as well as in certain specified localities in New York State.

"In the conversations which I had with the democratic leaders it was clearly brought out that the sugar refiners were ready to contribute to the democratic campaign fund if it could be understood that the industry would be fostered and not destroyed by the democratic tariff policy, and I received the impression, which became indelibly fixed on my mind then and remains fixed to this day, that President Cleveland understood the situation and was willing to acquiesce in it if we won at the polls.

"I did not talk with Mr. Cleveland in person on this subject, though I called at his hotel to pay my respects, and I am thoroughly satisfied that the charge of 'party perfidy and party dishonor' in the famous Wilson letter was an act of grossest wrong and cruelty to Senator Gorman. If Mr. Cleveland, as I was told, knew of these negotiations and was the beneficiary of such a contribution, it is inconceivable how he could lend his great name and influence toward destroying Senator Gorman's influence and popularity in the way he did.

"When it is remembered that the placing of a duty on sugar under the Wilson-Gorman tariff as a substitute for the bounty system of the McKinley tariff was made necessary in order to get the votes of the two Louisiana Senators, it was easy to see that we either had to have no tariff legislation that session or the pledges made before the election had to be carried out. Gorman, honorable man as he was, and party leader in the Senate of the democrats, redeemed every pledge made by the party leaders in New York. There was something pathetic in the indignant words with which he met the charge of 'party perfidy and party dishonor,' which had been so unjustly hurled at him by President Cleveland."

Mr. Rayner was the first speaker, and his speech was declared a beautiful tribute to the late Mr. Gorman.

It was late when Senator Whyte's turn came to speak, but his speech was a fitting close to the eulogies of the day.

When he finished he moved the adoption of the resolution that as a further respect in memory of the late Senator from Maryland the Senate adjourn. The resolution was adopted and the Senate adjourned.

Today's Telegraphic News

The Murder of Governor Illas.

Caracas, Feb. 2.—Violent outbreaks are expected here as the result of the recent killing of General Mata Y. Illas, governor of Caracas, by political enemies who are followers of Vice President Vincente Gomez. Friends of the late governor are threatening revenge. One report has it that companies are being armed and drilled ready for an open attack on Gomez's followers.

Governor Mata Y. Illas was shot down in cold blood while in a cafe by Gomez's friends. The murderers are now in jail. An attack on the prison is feared from Illas' friends in an effort to deal out summary punishment to the murderers. Eighteen of Gomez's friends who had spent the evening of January 27 in drinking, rioting and shooting revolvers, indiscriminately gathered in a cafe and began shouting "Long live Gomez."

Governor Illas drove to the cafe to remonstrate with them. He was invited to sit down at their table and was shot while drinking with them.

Owing to the unfriendliness between President Castro and Vice President Gomez, it is not believed any serious attempt would be made to check followers of the late Governor Illas if they made an attack on Gomez and his friends.

The Swettenham Letter.

Kingston, Jamaica, Feb. 2.—"The action of Governor Swettenham in addressing his insulting letter to Admiral Davis was not that of a sane man, nor was it the deed of James Alexander Swettenham, man of the world and valiant soldier." That letter was written by a man temporarily crazed by an overwhelming calamity." This is the statement made today by Dr. James Doane, head of the government medical department in Jamaica. He joins all Jamaica in deploring the incident which was so offensive to all America, but, unlike most people here, he bears no resentment toward the Governor. "Too much sympathy cannot be extended to the Governor. He is in the harassing position of seeking a sane explanation for an insane act," continued Dr. Doane. "He threw himself into the task of coping with the situation. In the dead heat that followed the quake, he went about in the sun. Always as he went the appalling horror grew on him. It was too much for a human mind, for he realized that upon him devolved the duty of meeting the crisis. He did his best no doubt, but he was mad when he wrote that letter which the whole British Empire would recall."

War Talk Absurd.

Washington, Feb 2.—"All this war talk is absurd. We are not going to fight with Japan or any other nation, and anyone who deliberately asserts that we are is either mighty foolish or is trying to make capital of some scat out of a 'scare.'" Senator Shelby M. Cullom, chairman of the Senate committe on foreign relations, so expressed himself today after a talk with the President at the White House. "We are not on the eve of serions trouble with any nation on earth," continued Senator Cullom. "We should attend to our own business and quit talking about war. It is the continual talking about trouble that sometimes brings it. It is perfectly ridiculous to imagine that two great nations like the United States and Japan are going to resort to arms over such a small matter as the school question in San Francisco. There is nothing in it, and I'd like to 'go to war' with Perkins and the other gentlemen from the coast who are making a mountain out of a mole hill."

Anxiety in Manila and Honolulu,

Manila, Feb. 2.- The acute diplomatic situation in Washington over the Japanese school question at San Francisco is welcome news to army and navy officers stationed in the Philippines. They now believe that the powers in Washington have heeded the warnings that have been forwarded of Japanese activities in the archipelago. That the Japanese war office has agents in the Philliplnes is undoubted here. The only question is as to their number.

Honolulu, Feb. 2.—There is a renewal of the reports that almost a regiment and possibly two of Japanese soldiers have entered the Hawaiian Islands disguised as laborers. Official denials from Tokio and the report of immigration Commissioner Sargent, who was recently here, that there was no truth in the statement, have not silenced the rumor.

Negroes Excluded from Cafes.

Berlin, Feb. 2.—The race question is being introduced into Germany, and cafe proprietors here have taken the lead by barring negroes from their establishments. An attempt made by a negro to flirt with a barmaid was directly responsible for this action being taken. The offending black was hustled out of the place. Then the proprietor hung out a sign announcing that negroes would not be admitted in the future. Other cafe managers were quick to follow his example.

Suicide after Wake.

New York, Feb. 2.—John Boyd, a machinist 33 years o'd, of Brooklyn, after attending the wake of Assemblyman Donohue, who shot himself last Thursday, went into the saloon early today and shot himself in the lavatory, just as Donohue had done. Boyd was an intimate friend and trusted political follower of Donohue. The affair has created a sensation among the politicians of Senator McCarren's bailiwick in the Fourteenth Assembly district of Kings county.

New York Stock Market.

New York, Feb. 2.—Trading on the exchange during the first hour was generally quiet and without special feature. The same stories were told of liquidation and bear attacks offset by what the room called good buying. In the first few minutes room traders felt the market and finding no demand offered stocks freely, the more important of the traders stating that they based their operations on the Japanese news from Washington.

Six Children in Two-and-a-half Years.

Washington Court House, O., Feb. 2.—Mr. and Mrs. Wm. Allen living near Sedalia are certainly entitled to special recognition from President Roosevelt. Within the past two year, and six months, six children have been born to them. Thirty months ago, Mrs. Allen gave birth to twins. Twelve months later another pair of twins came to the Allen home, and now a third set of twins are on hand. This is an average of one child for every five months of wedded life.

Collided with Light Engine.

Altoona, Pa., Feb. 2.—While the first section of rrain No. 22, the Manhattan Limited, was speeding east over the Pennsylvania Railroad, it ran into an empty engine near Conemaugh early today. Eleven passengers asleep in their berths were injured and four trainmen were hurt. The injured passengers suffered sprains of either neck, or back, or both owing to the sudden stop of the train which threw them against the end of the berths.

Dixie Broke Record.

Palm Beach, Fla., Feb. 2.—After considerable delay in correcting the figures, it appears that the motor boat Dixie, owned by E. J. Schroeder, of Jersey City, N. J., broke the world's record set last year by the Standard for a mile. In six trials yesterday the Dixie according to the unofficial announcement made a corrected mean average of 2 minutes, 21 3 5 seconds, which lowers the Standard's time by 3-5 seconds.

Monument to President Spencer.

Nashville, Tenn., Feb. 2.—The affection in which the late Samuel Spencer, President of the Southern Railway, was held by all grades of employes on the system, has resulted in a movement to erect a monument in his honor. Employes of all the departments of the company are interested in the movement, and a large fund will be raised. The monument will probably be erected in front of the new Union Station at Atlanta, Ga.

Saved by an Aged Negro.

Lexington, Ky., Feb. 2.—James Isom, an aged negro, probably saved the life of Judge James Hargis, of Jackson, last night. The negro discovered two men ambushed near the judge's home. They were armed with rifles and watching the judge's door. Isom entered the Hargis home by a back door and gave the warning. The Sheriff was summoned but the ambuscaders had escaped when the officers arrived.

Strike at Pennsylvania Mine.

Mahoney City, Pa., Feb. 2.—A strike of 400 men and boys of the Morea colliery of the Dodson Coal Company, commenced today because the company has made a new rule that miners must separate slate and rock from the coal as mined. The miners delare that this additional work amounts to a reduction of 20 per cent in their wages. The mine is completely tied up.

Killed His Wife.

Sharon, Pa., Feb. 2.—While temporarily insane, early this morning Hamilton Wright, a life long resident of Sharon, aged 52 years shot and killed his wife, 48 years of age, at their home, South Main street.

Fifty-ninth Congress.

Washington, Feb. 2.

SENATE.

Mr. Clark presented the credentials of Senator elect Jefferson Davis of Arkansas. The Indian appropriation bill was then taken up.

HOUSE.

In the opening ceremonies of the House today, Chaplain Couden referred touchingly to the death of Representative Wm. H. Flack, of the 26th New York District, at Malone, N. Y. The desk of the deceased member on the republican side was draped in mourning. After the memorial ceremonies at two o'clock in honor of the late Senator Gorman, the announcement of the death of Mr Flack will be made and the House will then adjourn as a further mark of respect to both statesmen.

After the adoption of resolutions of regret at Representative Flack's death, Speaker Cannon named the funeral committee.

Mr. Hepburn (rep. Ia.) today replied to the plea of Mr. Champ Clark and others for a deep waterway from the gulf to Chicago.

Two granite walls, he said, the advocates claimed would have to be built in the Mississippi to afford the deep waterway. On account of the alluvial soil, Col. Hepburn said it would be necessary to go down two hundred feet for foundations, and to construct granite walls two hundred feet high and 2,000 miles long. Indeed, the man who built them would put his name on the "scanty list of the immortals," quoting Mr. Clark.

Before the Gorman ceremonies the House, in committee of the whole, further considered the rivers and harbors appropriation bill.

Speaker Cannon took the floor in order to pay a tribute to the late Senator Gorman, of Maryland, in whose honor memorial services were held.

He said it was unnecessary for him to tell of the work of the Senator, that the country already knew of it. Mr. Cannon dwelt upon not only the intelligence, the knowledge, the integrity, but also the industry which Senator Gorman brought to Congress.

Preparing for the 22d.

A meeting of the George Washington Birthday Celebration Association was held in the Friendship engine house last night. President A. D. Brockett presided, and arrangements for the celebration of the anniversary of the birth of Washington were made.

President Brockett announced the following executive committee: Mayor F. J. Paff, Judge Louis C. Barley, Maj William M. Smith, John H. Trimyer, Julian Y. Williams, James R. Caton, Capt. Herbert Bryant, Charles King, Julian T. Burke, W. A. Smoot, jr., William B. Smoot, E. E. Downham, Peter von de Westelaken, C. T. Howard, and C. C. Carlin.

It was decided that as many of the committee as possible call on Secretary Taft and request him to arrange a date on which the committee can interview President Roosevelt and urge his attendance at a banquet to be given in the Alexandria Light Infantry Armory at 2 o'clock on the afternoon of February 22.

It was decided to place a wreath on the tomb of Washington at Mount Vernon in the forenoon of the 22d instant, give an exhibition with the old Friendship engine at noon, and have a band concert at the corner of King and Washington streets at night.

For reasons of convenience, the banquet will be held at 2 o'clock in the afternoon. It is the intention to have the music for this occasion furnished by the Greater Washington Band.

Gen. Washington's Farewell Address will be read, either at the banquet or at the evening concert.

Although there will be no street parade, all the principal streets of the city will be decorated with the national colors, business will be suspended, and in many ways the home town of Washington will do honor to his memory.

At 11 o'clock on the morning of February 22 services appropriate to the anniversary will be held in Christ Episcopal Church, under the auspices of Mount Vernon Chapter, Daughters of the American Revolution. Following its time-honored custom, Alexandria-Washington Lodge of Masons will give a banquet in the evening in observance of the anniversary.

Junior Order United Americans.

On account of the condition of affairs in the Junior Order United American Mechanics in Virginia, enjoining the National Council from operating in the State, the councils that remained loyal to the National Council recognizing the decrees of the courts made a proposition to the State Council of the Jr. O. U. A. M. The proposition submitted by the loyal councils was not accepted and accordingly such councils obtained from the State Corporation Commission a charter on December 29, 1906, for an order known as "Virginia Branch, Junior Order United Americans." This charter gives the incorporators the right to take in any organization that exists in the State, and to do business and affiliate with any organization or body existing or that may exist outside of the State. The councils of this city; namely, Alexandria and Belle Haven Councils, could continue their work as independent loyal councils but being desirious of being connected with a State organization unanimously made application and have been admitted to the new organization of the Junior Order of United Americans, and hereafter will continue to be known as such.

The newly chartered organization is ressing rapidly. The two councils named have a combined membern this city of 500 and have done t noble work in a beneficient way is city. The meeting of the two ils, which are held Monday and day evenings, are largely attended uch interest is manifested in the

Wife Sues Husband.

Mrs. Julia B. Moore yesterday began suit in Washington for recovery and accounting from her husband, Charles T. Moore, who for many years was a well-known business man in that city, and for a restraining order and an injunction. Mrs. Moore has apartments at the Farragut, and she says that her husband is now residing at Front Royal, Va.

The action is for a large sum of money in connection with the stock and affairs of the American Pianograph Company.

Mrs. Moore also names as co-defendants Richard C. Thompson in his capacity as trustee and committee of the person of her husband, who had been adjudged insane; J. K. M. Norton, as trustee; National Safe Deposit Savings and Trust Company as trustee; George R. Cornwell, of New York, in his own right; Henry L. Bryan, a lawyer, and his wife, Marian Bryan, in their own right, and the American Pianograph Company, a corporation organized under the laws of the state of West Virginia.

Anniversary of Wedding.

Mr. and Mrs. Josiah Millard, who now live in Washington, celebrated the sixtieth anniversary of the date of their marriage on Thursday. Josiah Millard and Jeanette Karner were married at the Baptist Church in North Egremont, Mass., January 31, 1847, where Mr. Millard was born August 25, 1825, and Mrs. Millard September 16, 1822. They have been residents of Washington since 1874. Mr. and Mrs. Millard lived in Loudoun county during the latter part of the fifties and up to the breaking out of the civil war, when they moved to Alexandria and he was appointed internal revenue assessor for this district. He was removed from the position in 1866 and was succeeded by Mr. E. E. White, but in 1869 was reappointed assessor. Mr. Millard during reconstruction days was a prominent republican politician.

Ground Hog Day.

If the ground hog protruded his head from his retreat this morning he saw no shadow, that is in this city and vicinity, and should the old tradition hold good, there will be an early spring, minus the usual vagaries of the weather during February and March. As has often been stated, the notion that this rodent prognostigates the weather that is to prevail six weeks from today in ancient, running back, it is said, into classical days. Nearly every country has substantially the same tradition, and farmers in all climes watch with earnestness the meteorological conditions of the 2d of February.

Basketball.

The Alexandria Athletic Association Reserves basketball team defeated the Capron Cadets, of Washington, last night, in one of prettiest games of the season by the score of 14 to 8. The feature of the game was the team work of the reserves and the goal throwing of Entwisle and Tomlin of the home team. The association team will go to Washington tonight to play the Vespers in the Vespers' Hall, Sixth and I streets northeast.

Charter.

The Corporation Commission has granted a charter to the Southern Hydraulic Construction Company, Inc., of Alexandria. Incorporators—H. L. Millner, president, of Morgantown, N. C.; H. A. Pressey, vice president; Frank W. Weller, secretary and treasurer; J. B. Gordon, all of Washington. Capital stock—Maximum, $15,000; minimum, $5,000. Objects and purposes: Construction and contracting business in all its branches.

Opera House.

Mr. and Mrs. Wilson Todd and company last night at the Opera House presented "The Shadow," a sensational detective drama, in a manner worthy of the applause it received. All the members of the company were well up in their parts, the acting of Mr. and Mrs. Todd being especially good. The specialties were also pleasing. Tonight the attraction will be the western melodrama "The Girl of the West."

The Market.

There was a very light offering of produce in the country market this morning. Butter ranged from 25 to 35 cents a pound, and eggs sold at 28 cents a dozen. Good poultry was scarce and high. The few vegetables offered were unchanged in price. The butchers and hucksters had supplies equal to the demand, and most of the activity was apparent on the inside of the market.

The Weather.

Rain fell at intervals last night, and this morning a heavy fog hung over the river, rendering navigation difficult. The temperature was mild, and the ice in the river is fast disappearing. The streets are in a bad condition, the result of snow and rain and the ice formed by the low temperature several days ago. The roads in the city are almost impassable.

I. O. O. F.

Potomac Lodge, No. 38, I. O. O. F., held a largely attended and interesting meeting last evening. The initiatory degree was conferred upon two candidates. The lodge has a committee out making arrangements for celebrating its 68th anniversary on March 22. Among those to be present will be the sovereign grand secretary and possibly the grand sire.

Conflict Between Church and State.

Cardinal Couille, Archbishop of Lyons, in a long pastoral letter yesterday adjuring the faithful to pray for a victory for the church, bitterly arraigns the government. It begins:

"The aim of our enemies is to destroy all religion, dethrone God, and make the people believe we are in the world by some causeless accident, for an ephemeral existence, to finally disappear into the nothingness from which we sprang."

Continuing, the cardinal reviews the successive steps of this "hellish plot," beginning with the expulsion of the members of religious orders, the abolition of all but lay teaching in the schools, the removal of the crucifixes from the schools, courtrooms, and so on, and "ending with the complete abolition of the church and an attempt to destroy its divine constitution."

The parish priests, in obedience to the instruction of the bishops, are submitting to the mayors eighteen-year contracts for the lease of the churches, and are giving the officials four days in which to reply. The mayors of some of the Catholic communes immediately signed the documents, but the papers must still be countersigned by the prefects, who are awaiting the government's decision in the matter.

Archbishop Vilatte, the American prelate, who is assisting in the formation of the new French national church, has lodged a formal complaint against the Society of Militant Catholics of the neighborhood of the Church of the Apostles, where the services of the new church will begin on Sunday next, charging that they are preparing to create a disturbance on that occasion.

Argo Red Salmon took the grand prize at the St. Louis Exposition, the only one ever given at any fair on Salmon. 15 cents a can.

Strength of the Socialistic Party.

Complete returns of the German Reichstag elections show that all the political parties increased their vote. The clerical center made the largest gain, 398,005; the national liberals, 210,981; the socialists, 240,238; the conservatives, 210,654; and the moderate radicals, 200,860. The socialists remain the most powerful party numerically, having polled 3,251,005 votes out of a total of 11,109,768. The next highest parties are the clericals, with 2,274,097 votes, and the conservatives, with 1,124,923.

Owing to the fact that there has been no change in the boundaries of the election districts since the founding of the empire and the shifting of the population of the country to the cities, the socialists, with more than a quarter of the total number of votes, will probably have scarcely more than an eighth of the number of seates in the Reichstag, while the clericals, with one fifth of the total votes, will have about one-quarter of the seats.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop, it seems, has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against Opium and narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by E. S. Leadbeater & Sons, druggists.

Croup can positively be stopped in 20 minutes. No vomiting—nothing to sicken or distress your child. A sweet, pleasant, and safe Syrup, called Dr. Shoop's Croup Cure, does the work and does it quickly. Dr. Shoop's Croup Cure for Croup alone, remember. It does not claim to cure a dozen ailments. It's for Croup, that's all. Sold by E. S. Leadbeater & Sons, druggists.

All headaches go

An "Early Riser."
DeWitt's Little Early Risers, safe, sure pills.

Only a little cold in the head may be the beginning of an obstinate case of Nasal Catarrh. Drive out the invader with Ely's Cream Balm applied straight to the inflamed stuffed air-passage. Price 50c. If you prefer to use an atomizer, ask for Liquid Cream Balm. It has all the good qualities of the remedy in solid form and will rid you of catarrh or hay fever. No cocaine to breed a dreadful habit. No mercury to dry out the secretion. Price 75c, with spraying tube. All druggists, or mailed by Ely Bros., 56 Warren Street, New York.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by E. S. Leadbeater, & Sons, druggists.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

RUNNING EXERCISE.

Said to Be the Best Means of Making the Heart Strong.

The kind of exercise one should take for his heart's sake is extremely important. Exercise, to affect the heart sufficiently, must be vigorous, though not too vigorous. Ordinary walking, while healthful, falls short of this requirement. That calisthenics and light exercises generally are also deficient in this respect is proved by the fact that, while all humankind naturally indulge in light exercises, yet heart ailments are prevalent among them. Every one that is not bedridden walks more or less, and I have read learned articles which try to prove that walking is the only exercise man requires. But if a man never runs he could not, if he would, run fairly fast even half a mile. So the argument is in effect that a man need not be able to run. I cannot agree with this conclusion, for walking at a moderate pace affects heart action only slightly.

Running, of all exercises for the heart, is, I think, the best. Of course one who has a weak heart cannot immediately run either fast or far, nor is it necessary for the average individual to learn to run great distances at a high speed, but every one owes it to his health to be able to run without distress, say half a mile at a fair pace. Let him begin by jogging one-eighth or one-quarter of a mile, then half a mile, which distance he may ultimately run reasonably fast.—G. Elliot Flint in Outing Magazine.

THE OCEAN'S BOTTOM.

Two Vast Valleys Traverse the Bed of the Atlantic.

The Atlantic ocean covers two vast valleys. One of these passes between the Cape Verde islands and the Azores, and it is of great depth. It runs close up to Europe and comes to an end close to the British Isles, where a ridge or crest of land separates it from the basin of the North sea. The other valley runs in the main parallel to the first, from which it is separated by an elongated strip of land, of which the Azores forms a supermarine continuation. This strip does not exceed a depth of 9,850 feet, while its height amounts to 6,560 feet. The first valley, like its confrere, is also very deep, its bottom being situated at a depth of nearly four miles below the surface. Passing along South America and leaving the Bermudas to the left it passes along Newfoundland and Labrador, finally ending just south of Greenland. The sub-Atlantic landscape thus consists of two vast parallel valleys or mountains. Farther north the land lies higher, and the sea is, relatively speaking, shallow. Between Greenland and the continent, close to Iceland and the channel islands, there is a huge plain free from any depression worthy of mention. It is quite clear that at one time England was connected to the continent.—Scientific American.

Snails In Wedlock.

"Snails in wedlock, as you might suppose, live tranquilly," said a nature student. "They are not petulant and fiery, not quick tempered. They quarrel little. I have made a study of snails in wedlock, and I have found them singularly affectionate. Their eyes are at the tips of their horns. When they meet they draw in their horns, bringing their eyes close together so that they may exchange a tender look. Snails in wedlock put their heads together in a manner suggestive of kissing. I have often seen a snail husband carrying dainty bits of green to his wife—a good provider. Snail sweethearts are modest. They do not make love openly. If a third snail approaches they go and hide under a dead leaf."

Marriage Lottery.

Every year in the Rumal country, in India, about October, a marriage lottery is held. The names of all the marriageable girls and of the young men of the circle who want to get married are written on slips of paper and thrown into separate earthen pots. From these they are drawn against one another by the local wise man. This simply determines the fact that the Rumai girl has come out and is ready to be married, and the youth whose name is drawn against hers thereby obtains a letter of introduction, with authority to make love immediately with what ardor and success he is capable of.
